Subject: Questions Regarding the Wilcox Oil Title & Corporate History Report

Ken:

Lance Nixon called me earlier today with questions on locating specific title documents using the information provided in the Draft Title Search and Corporate History Report for the Wilcox Oil Site submitted by Toeroek to EPA on May 16, 2014. As you recall, the report included as Appendix C the complete Draft Title Search Report submitted to EPA on April 8, 2014. At his request, two copies of all the scanned references had been provided Lance as a non-deliverable on May 28, 2014, to expedite internal review of the report and provide him with needed documents. Toeroek reviewed the reference naming convention and the report organization with Lance earlier this afternoon to assist him in locating the documents he needed.
